Programming Languages: JavaScript, TypeScript, Python, C++, C, C#, Java, Dart, Bash, SQL

Frontend: Next.js, Astro, Flutter, React, Blazor, Tailwind CSS, Bootstrap, UX/UI Research

Backend: REST APIs, Node.js, .NET Core, Firebase

Database: MySQL, PostgreSQL, MariaDB, SQL Server, Redis

Data Engineering & Analytics: Apache Spark, Apache Airflow, Apache Druid, Apache Superset.

DevOps & Cloud: Git, Docker, Podman, Kubernetes, Microsoft Azure, Linux, CI/CD

Languages: English (Fluent), Spanish (Native)

PROFESSIONAL EXPERIENCE

Escuela de Ciencias de la Computación e Informática, UCR

Full Stack Web Developer

San José, Costa Rica

August 2025 – December 2025

- Developed the frontend of an academic assistant selection platform using Next.js, automating a previously manual process for approximately 64 professors and 1,000+ students.
- Built a responsive, component-based web application to improve maintainability and UI consistency.
- Integrated REST APIs and mock data to accelerate feature delivery and enable parallel development.
- Implemented CI/CD practices to streamline deployments and reduce software delivery errors.
- Collaborated with backend developers and faculty stakeholders in a Scrum-based development environment.

Shogun Monitor System

Frontend Developer & Deployment Engineer

San José, Costa Rica

November 2022 – October 2023

- Customized the frontend of an anonymous reporting platform to meet each client's branding and functional requirements.
- Configured feature flags and client-specific application settings.
- Compiled and deployed web and mobile applications to production, including releases to Google Play and Apple App Store.
- Managed production environment configuration, including environment variables and database credentials.
- Performed UI testing across web and mobile platforms to ensure release quality.
- Fixed general application visual bugs revealed from tests.

Tek Experts

Azure App Services Software Support Engineer

San José, Costa Rica

February 2018 – March 2019

- Provided advanced technical support for Microsoft Azure App Services, including Web Apps and Functions, resolving deployment and configuration issues.
- Assisted international Microsoft customers as part of the official Azure support organization through Tek Experts.
- Delivered technical recommendations based on official documentation and best practices, improving customer satisfaction and resolution outcomes.

EDUCATION**Universidad de Costa Rica**

Bachelor's Degree in Computer Science with an Emphasis in Software Engineering

San José, Costa Rica

2021 - 2025

PROFESSIONAL STRENGTHS

- Naturally driven by technical challenges and analytical problem solving.
- Solid understanding of UX and UI design principles, with a keen eye for visual consistency and detail.
- Advanced Linux user (10+ years of experience).
- Clear communicator and collaborative team member.
